

**MINNESOTA STATE LOTTERY
GAME PROCEDURES
FOR THE
POWERBALL® POWER PLAY™ PROMOTION**

AS OF: AUGUST 27, 2010

**MINNESOTA STATE LOTTERY
GAME PROCEDURES
FOR THE
POWERBALL® POWER PLAY™ PROMOTION**

1.0. Name of the Promotion

The name of this promotion that will be conducted in conjunction with the Powerball Game will be Powerball Power Play.

1.1. Definitions

The definitions of the Powerball Game Procedures apply to these procedures for the Powerball Power Play promotion.

1.2. Start of Promotion

The Powerball Power Play promotion will begin on March 4, 2001, with the first drawing on March 7, 2001.

2.0. Qualification for the Promotion

To qualify for the promotion (a "Qualifying Play"), a person must purchase a Powerball Play and pay an additional dollar per play for the Power Play option.

2.1. Prizes to be Multiplied

A qualifying play that wins one of the seven lowest Set Prizes (excluding the Match 5+0) will be multiplied by the number selected (2 through 5 or 10) in a separate random Power Play drawing announced during the official Powerball drawing. The Grand Prize jackpot is not a Set Prize and will not be multiplied or increased. Match 5 Bonus Prizes are awarded independent of the Power Play option and are not increased or multiplied by the Power Play Multiplier. The announced Match 5+0 prize shall be paid one million dollars (\$1,000,000.00) unless a higher limited promotional dollar amount is announced by the MUSL Powerball Product Game Group.

2.2. Power Play Drawings

MUSL will conduct a separate random "Power Play" drawing and announce results during each of the regular Powerball drawings held during the promotion. During each Powerball drawing, a single number (2, 3, 4, 5) shall be drawn. The MUSL Powerball Product Group may change one or more of these multiplier numbers and/or the Match 5+0 Power Play Prize amount for special promotions from time to time.

2.3. Prize Pools

- A. Prize Reserve Accounts. The prize pool for all prize categories shall consist of up to 49.5% of each drawing period's sales, after the prize reserve accounts are funded to the amounts set by the MUSL Powerball Product Group.
- B. Expected Prize Payout. Except as provided in these rules, all prizes awarded shall be paid as set prizes. Instead of the Powerball set prize amounts, qualifying Power Play plays will pay the amounts shown below when matched with the Power Play number drawn (Match 5+0 prizes shall be paid \$1,000,000.00 (one million dollars) regardless of the Power Play Number selected):

	Prize Amount	5X	4X	3X	2X
Match 4+1	\$10,000	\$50,000	\$40,000	\$30,000	\$20,000
Match 4+0	\$100	\$500	\$400	\$300	\$200
Match 3+1	\$100	\$500	\$400	\$300	\$200
Match 3+0	\$7	\$35	\$28	\$21	\$14
Match 2+1	\$7	\$35	\$28	\$21	\$14
Match 1+1	\$4	\$20	\$16	\$12	\$8
Match 0+1	\$3	\$15	\$12	\$9	\$6

Prize Amount Regardless of Power Play Number Selected

Match 5+0	\$200,000	\$1,000,000
-----------	-----------	-------------

In certain instances as provided in these procedures, the Powerball set prize amount may be less than the amount shown. In such case, the seven lowest Power Play prizes will be a multiple of the announced Powerball prize amount. The Match 5+0 prize may be reduced as announced by the Powerball Product Group.

2.4. Probability of Prizes Being Multiplied

The probability of the various Power Play numbers being drawn during a single Powerball drawing, and a qualifying play being multiplied for the seven lowest Set Prizes are as follows:

<i>Power Play</i>	<i>Probability of Prize Increase</i>	
5X	Prize Won Times 5	1 in 4
4X	Prize Won Times 4	1 in 4
3X	Prize Won Times 3	1 in 4
2X	Prize Won Times 2	1 in 4

The Power Play amount for the Match 5+0 (\$200,000) prize will be \$1,000,000.00 (one million dollars). Power Play does not apply to the Powerball Grand Prize or to any Match 5 Bonus Prize.

2.5. Limitation on Payment of Multiplied Prizes

If the total of the Powerball set prizes and the multiplied Power Play set prizes awarded in a drawing exceeds the percentage of the prize pools allocated to the set prizes, then the amount needed to fund the set prizes (including the Power Play prize amounts) awarded shall be drawn from the following sources and in the following order: (i) the amount allocated to the set prizes and carried forward from previous draws, if any; (ii) an amount from the Powerball Set-Prize Reserve Account, if available in the account, not to exceed twenty-five million dollars (\$25,000,000) per drawing. If, after these sources are depleted, there are not sufficient funds to pay the set prizes awarded (including Power Play prize amounts), then the highest set prize (including the Power Play prize amounts) shall become a pari-mutuel prize. If the amount of the highest set prize, when paid on a pari-mutuel basis, drops to or below the next highest set prize and there are still not sufficient funds to pay the remaining set prizes awarded, then the next highest set prize, including the Power Play prize amount, shall become a pari-mutuel prize. This procedure shall continue down through all set prize levels, if necessary, until all set prize levels become pari-mutuel prize levels. In that instance, the money available from the funding sources listed in this rule shall be divided among the winning plays in proportion to their respective prize percentages. Prizes, that under these procedures become pari-mutuel prizes, may be rounded down so that the prize can be paid in whole dollars. Breakage resulting from rounding these prizes shall be carried forward to the prize pool for the next drawing.

3.0. Governing Law

In purchasing a Qualifying Play in the Powerball Power Play promotion, the player agrees to comply with and abide by these promotional procedures for the Powerball Power Play Promotion; the Minnesota State Lottery's game procedures for the Powerball game; Minnesota Statutes, Chapter 349A; the Minnesota State Lottery's Prize Payment Rules and all final decisions of the Director of the Minnesota State Lottery.
