None of the first set plus one (1) of second set (0+1)	\$	12.00

### 2.3. Prize Pools

- A. Prize Reserve Accounts. The prize pool for all prize categories shall consist of up to 49.96% of each drawing period's sales, after the prize reserve accounts are funded to the amounts set by the MUSL Powerball Product Group. An additional four-tenths of one percent (0.4%) of sales may be collected and placed in the rollover account or in trust in one or more prize reserve accounts until the prize reserve accounts reach the amounts designated by the MUSL Powerball Product Group.
- B. Expected Prize Payout. Except as provided in these game procedures, all prizes awarded shall be paid as lump sum set prizes. Instead of the Powerball set prize amounts as set forth in Section 2.1. In certain instances as provided in these procedures, the Powerball set prize amount may be less than the amount shown. In such case, the eight (8) lowest Power Play prizes will be as announced by the Powerball Product Group after the Powerball drawing.

### 2.4. Limitation on Payment of Multiplied Prizes

If the total of the Powerball set prizes and the Power Play set prizes awarded in a drawing exceeds the percentage of the prize pools allocated to the set prizes, then the amount needed to fund the set prizes (including the Power Play prize amounts) awarded shall be drawn from the following sources and in the following order: (i) the amount allocated to the set prizes and carried forward from previous draws, if any; (ii) an amount from the Powerball Set-Prize Reserve Account, if available in the account, not to exceed forty million dollars (\$40,000,000) per drawing. If, after these sources are depleted, there are not sufficient funds to pay the set prizes awarded (including Power Play prize amounts), then the highest set prize (including the Power Play prize amounts) shall become a pari-mutuel prize. If the amount of the highest set prize, when paid on a pari-mutuel basis, drops to or below the next highest set prize and there are still not sufficient funds to pay the remaining set prizes awarded, then the next highest set prize, including the Power Play prize amount, shall become a pari-mutuel prize. This procedure shall continue down through all set prizes levels, if necessary, until all set prize levels become pari-mutuel prize levels. In that instance, the money available from the funding sources listed in this rule shall be divided among the winning plays in proportion to their respective prize percentages. Prizes, that under these procedures become pari-mutuel prizes, may be rounded down so that the prize can be paid in whole dollars. Breakage resulting from rounding these prizes shall be carried forward to the prize pool for the next drawing.
