THE MINNESOTA LOTTERY APP IS AVAILABLE ON APP STORE AND GOOGLE PLAY

The Minnesota Lottery app, designed to make lottery transactions easier and more convenient for you and your players.

Available for free download from the App Store and Google Play, our app offers a range of time-saving features designed to enhance the player experience. While it does not support ticket purchases or prize cash-outs, it provides many other ways for players to engage with the Minnesota Lottery:

- **Create and save digital play slips for lotto games**
- **Find a Retailer feature**
- **Scratch ticket checker**
- **Scan to enter 2nd Chance contests**
- **Up-to-date game and jackpot information**
- **Push notifications**
- **Lotto ticket checker**
- **Enter free Giveaways**

The Minnesota Lottery mobile app will enhance the in-store experience for your players and save time for your staff.

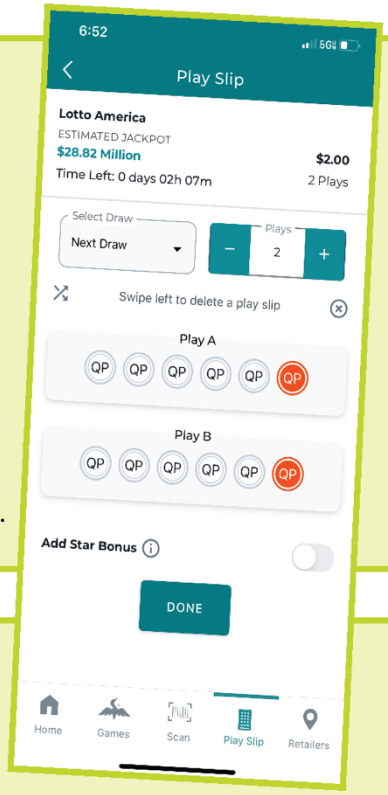

MINNESOTA LOTTERY

CREATE AND SAVE DIGITAL PLAY SLIPS FOR LOTTO GAMES

Players can create their own play slips and save them on their phones. The play slips will have a QR Code to scan at retail full-service or self-service vending* locations.

Use the lottery terminal wand to scan the QR code on the player's digital play slip and the terminal will generate a lotto game ticket, making lottery purchases even easier and faster.

** Not available for $.50 Pick 3™ bet on self-service vending machines.*

SCRATCH TICKET CHECKER

Players can use the app to scan the barcode found under the scratch-off area on their tickets to instantly check if they've won. For non-winning tickets eligible for a 2nd Chance promotion, players can toggle the scanner to '2nd Chance' and seamlessly enter the associated drawing.

LOTTO TICKET CHECKER

Players can simply scan the new barcode that will appear on lotto tickets allowing players to check their tickets to see if they are winners. If the ticket is a winner, they can use the "Find a Retailer" feature to locate the nearest retailer to claim their prize.
