ADDENDUM

I. Below are the State's responses to questions received by the deadline stated in the Solicitation.

Q1: The primary-card price schedule uses four art files as the average, while Exhibit C allows one to five art files per order. Should bidders price the listed rows as complete orders at the stated average of four files, or provide a method for adjusting an order when the actual file count is different?

A1: Please review Exhibit D: Pricing #1 Contract Pricing. We are looking for max pricing for the average order. The awarded vendor may provide lower pricing at its discretion without requiring a duly executed amendment to the Contract.

Q2: For an average order of 4,500–5,500 primary game cards with four artwork files, does that mean 5,000 cards total divided among four versions, or 5,000 cards of each version (20,000 total)?

A2: Quantity x Art file. Example: ordering 5000 with 4 art files it would be a qty of 20,000 game cards.
